Candid-Away™

- **A dietary supplement to support G.I. tract microflora balance and detoxification functions.***
- **Recommended for:**
Restoring balance to the body during times of microflora imbalance*

What is Candida?

Candida albicans is a naturally occurring yeast that is usually kept under control by beneficial bacteria (probiotics) like *acidophilus*.* These bacteria, however, can be destroyed by birth control pills, antibiotics, steroids, cortisone drugs, chlorinated water, poor diet and extreme stress.* When this occurs, candida can grow out of control and trigger low mood states, irritability, dizziness, difficulty focusing, extreme fatigue, loss of memory, gas, bloating, diarrhea, constipation and weight fluctuation.* More than 100 million Americans are thought to suffer from candida overgrowth.*

About the Formula:

Calcium Undecylenate helps to rebalance friendly flora and reduce an overabundance of *Candida albicans* yeast in the body.*

Olive Leaf Extract supports immune system function.* It works directly against unwanted materials by stimulating protective cells (phagocytes) to ingest them without suppressing the immune system or damaging the body's beneficial flora.*

Lavender Extract- helps to soothe the stomach and colon.*

Tea Tree Oil Extract and Red Thyme Extract support intestinal microbial balance.*

Betaine hydrochloride provides acid balance in the stomach.* Low stomach acid interferes with digestion and the absorption of nutrients.*

Berberis vulgaris (Barberry) Extract inhibits the growth of many microorganisms, including fungi, protozoa, and bacteria.*

N-Acetyl Glucosamine (NAG) is necessary for glycoprotein synthesis.* The glycoprotein layer of the digestive tract has a high content of NAG. This layer is the protective barrier against stomach acids, pancreatic and stomach enzymes and bacteria.* N-Acetyl Glucosamine improves the function and structure of the glycoprotein layer.*

Grapefruit Seed Extract supports a healthy gastrointestinal system by helping maintain a healthy microbial balance.*

Cellulose and Hemicellulose are fiber digesting enzymes that help to balance good and bad microflora.* They can break down the cell wall of candida.* Candida's fibrous structures can be more quickly and completely digested without releasing any toxins.*

Supplement Facts

Serving Size: 3 Capsules

Amount Per Serving

Calcium (as Calcium Undecylenate)	30 mg
Lavender Extract (15% Essential oil)	266 mg
Tea Tree Oil Extract (15% Essential oil)	266 mg
Betaine HCl	250 mg
Red Thyme Extract (15% Essential oil)	133 mg
Berberis vulgaris (Barberry) Extract (6:1)	100 mg
Olive Leaf Extract	100 mg
Yielding: Oleuropein	15 mg
N-Acetyl Glucosamine (from shrimp and crab)	100 mg
Grapefruit Seed Extract	80 mg
Cellulase	40,000 CU
Hemicellulase	20,000 HCU

Other ingredients: vegetable cellulose, silica.

Contains: Shrimp and crab.

Warning: If you are pregnant or nursing, consult your health care practitioner before taking this product.

Suggested Use: As a dietary supplement, take 3 capsules, once or twice daily as needed on an empty stomach.

Sold Exclusively Through Retailers.

0300934.090 (90 Capsules)
