Pycnogenol®-50

- **A dietary supplement to support the immune system, vascular functions and skin health.***
- **Recommended for:**
Recurrent or persistent skin or respiratory concerns*
Children and Adults who find it difficult to concentrate or focus*
Joint discomfort*
Skin and collagen health*
- **Supports:**
Ability to focus*
Brain function*
Cellular integrity and functionality*
Circulation*
Histamine regulation*
Immune System function*
Joint Comfort*
Vascular integrity*
- Pycnogenol® (Pine Bark Extract) is a source of proanthocyanidins (PCOs).
- PCOs are bioflavonoids, a group of water-soluble, low molecular weight plant substances with recognized antioxidant (free radical scavenging) properties. They have the ability to inhibit the activity of certain enzymes which cause pro-inflammatory reactions within the body.* PCOs are unique because they are immediately bioavailable.
- In some comparative tests, Proanthocyanidins were found to be 50 times more potent than Vitamin E and 20 times more potent than Vitamin C as antioxidants.* Free radicals are oxygen atoms which can badly damage cell structures leading to lowered immune response and vulnerability to numerous degenerative diseases. The PCOs in Pycnogenol® are able to perform within the cell membrane and neutralize both fat and water-soluble free radicals.*

- PCO's are important to brain function, because they are one of the few dietary antioxidants that readily crosses the blood-brain barrier to directly support healthy brain cells, focus, concentration and memory.*
- Proanthocyanidins help to prevent the release of histamine from mast cells thereby reducing the adverse effects of histamine.*
- Proanthocyanidins support capillary strength.* Weak capillaries can contribute to bruising, elastin and collagen dysfunction, excess fluid in tissues, and circulatory insufficiencies.
- Pycnogenol® also has the unique ability to bond to collagen fibers.* It may support the inhibition of the natural enzymes your body makes that normally break down collagen.* By restoring collagen, Pycnogenol® helps support flexibility of skin, joints, arteries, capillaries, and other tissues.*

Supplement Facts

Serving Size: 2 Capsules

Amount Per Serving

Pycnogenol® (Pine Bark Extract) 100 mg

Other Ingredients: maltodextrin, gelatin, cellulose, vegetable stearate, silicon dioxide.

Warning: If you are pregnant or nursing, consult your health care practitioner before using this or any nutritional product.

- **Suggested Use:** As a dietary supplement, take 2 capsules with breakfast and 2 capsules with lunch for two weeks. Then take 2 capsules daily with your breakfast.

Pycnogenol® is a registered trademark of Horphag Research LTD.

Sold Exclusively Through Retailers.

0300779.030 (30 Capsules)

0300779.060 (60 Capsules)
