Superior Joint

Superior Joint is a dietary supplement that supports joint comfort and function.*

- **Superior Joint** are vegetarian and available in Lemon vanilla flavor.
- **Superior Joint** are a great alternative to swallowing tablets and capsules.

Superior Joint Supports:

- Joint Comfort*
- Cartilage Health*
- Joint Lubrication*
- Range of Motion*
- Flexibility*

About the Nutrients:

Glucosamine

- GreenGrown™ Glucosamine HCl is a 100% vegetable source produced through a unique, proprietary process of corn fermentation.
- Glucosamine is a fast acting nutritional building block for connective tissue.* It is necessary for the production of hyaluronic acid (HA) and chondroitin sulfates which support joint comfort and mobility.*
- HA is a natural lubricating agent in the joints and is found most abundantly in cartilage, synovial fluid and skin. HA provides natural cushioning structures needed by the joint.*
- Chondroitin sulfates make up the matrix of connective tissue and are principle components of cartilage and the synovial fluid found in joints. They help hold together cartilage, tendons and ligaments.* Their principle function is to provide lubrication and shock absorption.*

Methylsulfonylmethane (MSM)

- MSM helps support joint comfort and supplies an excellent source of sulfur to help ensure the body's ability to synthesize collagen for connective tissue health, and maintain cell membrane flexibility.*

N,N-Dimethylglycine (DMG)

- DMG is a versatile metabolic enhancer.* It supports joint health through immune system modulation, circulation, oxygen utilization and antioxidant protection.* A recent study was done by Dr. John Lawson at Clemson University on the joint supporting properties of DMG.

Supplement Facts

Serving Size: 2 Chewable Tablets

Amount Per Serving

Calories	25
Calories from Fat	5
Total Carbohydrates	5 g
GreenGrown™ Glucosamine HCl (Vegetarian)	500 mg
